Carpet extractor and upholstery cleaner with minimal drying time - 50L Tank

The Kerrick Riviera has been a highly successful unit over the last 30 years. It has been widely used by contract carpet cleaners, the automotive industry and in the hospitality industry.

The dual vacuum motors allow removal of 90% of all moisture from the carpet or upholstery thus allowing minimal drying times. The Riviera comes complete with a very functional 8 meter vac hose and a heavy duty, stainless steel carpet wand, and upholstery tool. This carpet shampooer has large capacity chemical and waste tanks, meaning the operator isn't constantly emptying/filling the tanks. Emptying the waste tank is made easier for the operator with a drain hose.

- Ergonomically designed push trolley for ease of emptying and heavy duty castor wheels for easy transport
- Dual vacuum motor to ensure minimal drying times
- Drain hose to make emptying waste tank fast and easy
- Large capacity tanks to minimise the need for constant tank emptying and filling for the operator
- Anti-corrosion stainless steel waste tank

Includes:

- Aluminium carpet wand
- Upholstery tool
- Hose assembly (8am)
- Tool end tail
- Carpet tool aluminium
