

VHB120

Spotless cleaning, easy to operate,
and all-battery-powered. Let's roll!

NILFISK

Fully charged flexibility

The Nilfisk VHB120 is tailored and targeted for industries like food, iron & metal, manufacturing, and pharma – and larger facilities within logistics and warehouses.

You need fuss-free flexibility and excellent spot-cleaning during the day? Say hi to the Nilfisk VHB120, our new compact, easy-to-operate, and battery-powered industrial cleaning unit fully charged to meet the most required safety needs for hazardous and combustible dust. If not a wonder, then definitely a win.

The hot-swap capability ensures fast and easy battery change and uninterrupted operation, and the off-board charger delivers 90% charge in less than 2 hours.

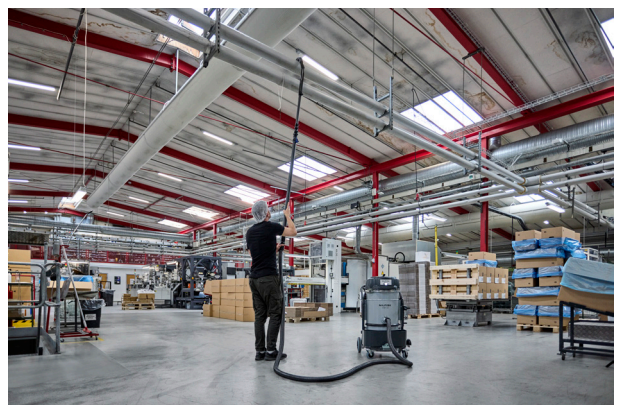

All 3rd-party certified, high-quality filters provide unique safety for both operator and workplace with the highest safety standards on the market.

The compact design enables effective cleaning for high-traffic industrial environments and even reaches narrow aisles and hard-to-reach areas.

Lightweight high-reach accessories now make cleaning areas previously impossible to reach easy. Also, all accessories are easy to get in the front tray.

Top features and benefits include:

- The highest M-H Class filtration to protect the operator and work environment
- ACD certification for combustible dust in not classified zones
- Dual motors that can be operated independently to tailor power and run time
- Overall easiness: Simple to set up, operate, and maintain
- Convenient user interface placement and color-coded touchpoints
- The ergonomic design ensures a safe and comfortable operation
- The manageable weight makes it easy to transport and load into service trucks and vans
- Compatible with a wide range of standard Nilfisk industrial hoses and accessories
- The cordless machine enhances safety by reducing the risk of slips, trips, and falls
- Nilfisk's recycling program ensures proper handling of end-of-life batteries, reducing the environmental impact

No cord, battery aboard

With an easy start via Bluetooth, the Nilfisk VHB120 gives you up to 120 minutes of spotless cleaning on just a single charge. A simple hot-swap mechanism gets you ready to roll on in no time and gets you recharged in practically less. It only takes the advanced lithium-ion battery 2 hours to charge to 90%. Always ensuring smooth and efficient productivity and less dead time. The cordless operation even enhances safety by reducing the most common workplace risks – slips, trips, and falls. **Simply unplug and play.**
