

Gas 20"K Gas Burnisher

POLIVAC

INTELLIGENT CLEANING TECHNOLOGIES.

This fully featured, state of the art burnisher is a compact high speed gas burnisher.

This powerful machine is armed with a V-twin kawasaki engine, it delivers 18 horsepower in a balanced, operator friendly package.

Smooth to operate and easy to use, The GAS 20" K punches above its weight compared to other machines in its class.

Fitted with closed loop engine emission technology, it automatically ensures that CO emissions are minimised and maintained at safe levels, below the workplace exposure standard determined by Safe Work Australia.

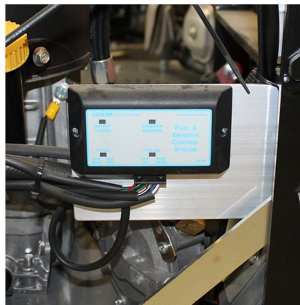

When you want 1,900 square meters per hour straight line gas burnishing, you can rely on the legendary long life and reliability of the Polivac 20" Gas K burnisher

Powerful 'Kawasaki' engine

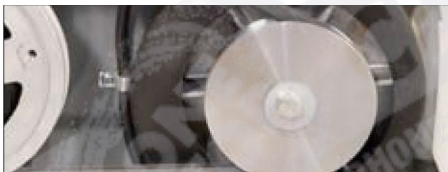

Powered by 13kw (18hp) V-twin Kawasaki engine, this machine provides 2500rpm fast and high efficiency coverage for medium and large areas.

Closed loop engine emission technology

The steady delivery of fuel ensures that CO emissions are minimised and maintained at safe levels, well below the workplace exposure standard determined by Safe Work Australia of 30 ppm.

Single stage active vacuum system / floating skirt

The skirt is positioned within the machine body for greater protection as well as containing the dust so that the active vacuum system leaves the floor dust-free.

Fully featured machine

This fully featured machine is armed with an easy-to-empty dust bag and is equipped with an easy-to-use cylinder clamp, that makes cylinder changing quick and effortless.

Bias control and powder-coated steel base for strength and minimal cleaning

Bias control allows the operator to easily align the machine to prevent any sideways drag resulting in much smoother, easier operations. Built to last, Gas 20" K's solid construction and highly durable finish ensures long life.

Push-button, electric-start

Easy starting every time from the 12 volt, long life battery.

TECHNICAL SPECIFICATIONS:

MODEL	Gas 20" K
MOTOR	13kw (18hp) Kawasaki V-twin
PAD SPEED	2500rpm
WEIGHT	94kg
DRIVE	Belt
VACUUM	Single stage, active centrifugal with metal impeller
BATTERY	12 volt, 20 amp hour, gel sealed
GAS BOTTLE	9kg (Optional extra)
NOISE	90db
START	Electric
FINISH	Industrial enamel and powder-coated
WARRANTY	1 year on motor and parts

This machine operates at a noise level more than 85 d(B)A. Therefore, hearing protection must always be worn when operating this machine.
